

PARTICIPATION OF KERNEX MICROSYSTEMS (INDIA) LIMITED
IN RAIL SOLUTIONS ASIA 2006 FROM MAY 17-19 AT BANGKOK

The company participated in Rail Solutions Asia 2006 at Bangkok from May 17 to 19, a Conference-cum-Exhibition, a specialist Railway event for the Asia Pacific region, bringing together many of the Asia's Railway operators and World's top Railway suppliers. Along with the event the 3rd Annual congress of Asian Railway Operators Association was held where more than 15 Railway Operators across Asia and 100 Senior Managers from these operators attended.

The countries participated in this conference-cum-exhibition event are delegations from China, Korea, Thailand, Indonesia, Cambodia, Vietnam, Srilanka, & Taiwan.

KMIL displayed the Networked ACD System to the World's Railway community as an innovative and economical Anti-Collision System for Railways. A Seminar for 30 minutes, explaining the functioning, technologies, special features, benefits and Project services being offered by KMIL, was held and 80 delegates attended.

China, Thailand, Indonesia and Srilanka, have shown keen interest in the Networked Anti-Collision System, from India.
