ICRA VIEWS**Gains on bond portfolios aided PSBs report profits in FY21: Icra**PRESS TRUST OF INDIA
Mumbai, June 21

AFTER FIVE CONSECUTIVE years of posting losses, public sector banks (PSBs) reported net profits in the 2020-21, supported by windfall gains on their bond portfolio, rating agency Icra Ratings said in a report. Apart from trading gains, the return to profitability

Covid-19 resulted in windfall gains for PSBs, with trading profits on their bond portfolios rising sharply after the steep cut in policy rates by the RBI

ity was supported by lower credit provisions on their legacy non-performing assets (NPAs), after the high provisions made during the last few years, it said.

"The onset of Covid-19 resulted in windfall gains for public banks with trading profits on their bond portfolios rising sharply after the steep cut in policy rates by the Reserve Bank of India (RBI) in March 2020," the agency said in the report.

The repo rate and the reverse repo rate were cumula-

tively cut by 115 basis points (bps) and 155 bps, respectively, during March 2020 and May 2020 to 4% and 3.35%, respectively, by May 2020.

In FY21, PSBs reported a net profit of ₹32,848 crore, against loss of ₹38,907 crore in 2019-20, the agency's vice president (financial sector ratings) Anil Gupta said.

According to its estimates, public sector banks booked profits of ₹31,600 crore due to gains on bond portfolio, compared to overall profit before tax of ₹45,900 crore in FY2021, the report said.

With the rate cuts and abundant liquidity, the daily average for the benchmark 10-year government securities declined from 6.42% in Q4FY20 to 6% in Q1FY21, 5.93% in Q2FY21 and 5.90% in Q3FY21, before rising to 6.06% in Q4 of the previous fiscal.

Assam microfin relief package 'positive' from asset quality perspectiveMITHUN DASGUPTA
Kolkata, June 21

ASSAM'S MICROFINANCE RELIEF scheme is a "positive development" from an asset quality perspective and the relief provided is expected to reduce near-term loan losses for lenders, who were affected by the Covid-19 pandemic.

"The scheme rolled out by the government of Assam has been structured in a way to incentivise regular borrowers and meet the demand of the stressed borrowers. It also aims at discouraging lenders and borrowers from over-leveraging. This is a positive development from an asset quality perspective. The relief provided is expected to reduce the near-term loan losses for the lenders, who were affected by the pandemic," said Sachin Sachdeva, vice president and sector head, Financial Sector Ratings, ICRA.

Sachdeva said the operationalisation of policy, however, would be a challenge as multiple lenders have exposures to borrowers. "Further, making

borrowers understand the eligibility criteria would be difficult, which may impact the repayment behaviour of non-eligible borrowers," he told FE.

The collection efficiency dipped drastically in Assam after the state Assembly had passed the Microfinance Institutions Bill, 2020, in December last year and talks of a possible waiver of microloans ahead of the elections. There had been delays in repayments from the borrowers, and because of the confusion over the type of the proposed relief package people were holding back payments.

"The funding of the scheme will happen in mid-August after the Assembly is expected to approve the budget announcements by the end of July," two persons familiar with the matter told FE.

On Monday, during a virtual press conference on the Assam relief package, MFIN director and CEO Alok Misra said the collection efficiency is expected to return to normalcy within three months as after the announcement of the scheme borrowers have started to contact with the lenders on repayment matters.

Manoj Kumar Nambiar, MFIN chairperson, said: "The relief measure has focused on responsible borrowing, responsible repayment and responsible lending. We sincerely thank the government's efforts to continue the flow of credit to the low-income households in these difficult times."
